

DOWNTOWN BUSINESS IMPROVEMENT DISTRICT

OVERVIEW

Location: 5th to 9th Streets, NW; C to K Streets; 4th to 14th and M Streets, NW

Client: District Department of Transportation

Period of Performance: September 2009 – September 2010

Contract Value: \$5.5M

FMCC Job No.: 9169

Project Description

The project involved streetscape and street light improvements in a Washington, DC downtown business district incorporating Chinatown's commercial corridors. The work included new construction or repair of brick and pavers sidewalks, curbs and gutters, upgrades for existing wheelchair ramps, upgrades of street lighting, relocation and repair of traffic signals, relocation of existing hydrants, planting of trees and flora, fitting sites with furnishings – bike racks, trash and recycle receptacles, resurfacing of existing asphalt roadways, and the installation of brick pavers with animal symbols in Chinatown.

Project Significance

This ARRA (Stimulus) project showcased Fort Myer's ability to perform construction on roadways and sidewalks congested with a high concentration of pedestrians and vehicular traffic.
