

CONSTRUCTION OF DIAMOND TEAGUE PARK

OVERVIEW

Location: First Street and Potomac Ave, SE, Washington, DC

Client: District of Columbia Government

Period of Performance:
December 2008 – March 2010

Contract Value: \$7.4M

FMCC Job No.: 9069

Project Description

This park construction project involved site demolition and site preparation, construction of piers, docks, gangways, pedestrian walkways and floating docks, installation of electrical lighting, fencing, and landscaping.

Project Significance

This complex project showcases the capability of the Bridge and Electrical Divisions of Fort Myer to complete the demolition and reconstruction of a project over a waterway, in a challenging construction environment involving the coordination of multiple task groups working simultaneously. The project was delivered within budget and by deadline.
