

CINDER BED ROAD REALIGNMENT

OVERVIEW

Location: Newington Road and Cinder Bed Road Intersection, Lorton, VA

Client: Fairfax County, VA

Period of Performance:
February 2015 — November 2017

Contract Value: \$4.3 M

FMCC Job No.: 10230

Project Description

This project is primarily to reconfigure the Newington Road and Cinder Bed Road intersection. Here, a portion of Cinder Bed Road was realigned and an access Road into the Newington DVS Maintenance Facility was created. Included in Fort Myer Construction's work is demolition of asphalt and concrete, clearing and grubbing, excavation, erosion and sediment controls, asphalt, concrete sidewalk, concrete curb and gutter, asphalt trail, underdrain, construction survey and stakeout, striping and signage, maintenance of traffic, storm sewer, sanitary sewer, three 12'x6' box culverts, 6" -12" waterline relocation. Also included is stream channel restoration. This project is located within flood plain and wetlands area.

Project Significance

Fort Myer Construction had to adhere to a tight schedule to ensure that trees were not removed during bat season which was April – June. It is important to protect the bat species, because they increase agriculture and forest health by providing woodland and crop pest-protection. Night and weekend work occurred regularly to keep the project on track.
